MAGNETIC CONTROL DOUBLE-SILVER

THE BUILDING FILM

MAGNETIC CONTROL DOUBLE-SILVER INSULATION FILM

TOP-LEVEL INSULATION, EXPLOSION-PROOF, UV PROTECTION

MAGNETIC CONTROL DOUBLE-SILVER INSULATION FILM

Excellent film, no matter how exposed to the sun, it won't get hot.
Reflective insulation is the real insulation.

A GENUINE SILVER-COATED HEAT INSULATION FILM

The nano-coating and multi-layer magnetic control composite technology can effectively block heat from entering the room, reduce oxidation, and perfectly achieve a balance among thermal insulation efficiency, signal blocking, and product stability.

STRONG COLLABORATION TOP-LEVEL INSULATION

Nano coating reduces oxidation, and the magnetron sputtering process achieves reflective insulation.
Top-level insulation, long-lasting and stable durability, comfortable and energy-efficient

HIGH-DEFINITION UV PROTECTION

Clear and bright, anti-glare, blocks 99.9% of ultraviolet rays to prevent sunburn and tanning, and slows down the aging of furniture.

SUPER DUCTILITY EXPLOSION-PROOF

Optical-grade ultra-tough substrate, thickness increased by 50%, puncture strength enhanced by 200%, stronger impact resistance, explosion-proof protection doubled.
